

DOGMASTERY INC PRESENTS

Koa

vom Mutigen Zwinger

Overall Disposition

Koa is our lovable koala bear! He is a very outgoing puppy that loves to engage with his handler. A male with high cognitive abilities and a true enjoyment for play. He exhibits very balanced drives in all categories; food, hunt, object and prey. Confident on all surfaces, resilient and sleeps comfortably through the night in his crate, he is a perfect candidate for Home & Family Protection & IGP. Having been raised with small dogs and exposed to high traffic retail environments early on, he is a puppy that enjoys tagging along on daily excursions and when stimulated mentally, settles quite well around the home throughout the day.

Health & Genetics

Koa is AKC registered, up to date on all of his shots and left the vet with a clean bill of health! His parents are Clea z Kokesova Dvora IGP 1 (HD-Excellent, ED-0) and no long hair gene and SG Buddy vom Patalia - IGPI, Breed Surveyed, (HD-Normal, ED-Normal) and no long hair gene.

Puppy Management

Koa is currently immersed in our Puppy Management/Sport Program, where upon completion he will transition into his forever home. This course covers the introduction to housebreaking, proper social engagement in high traffic retail areas, appropriate pet etiquette in and around the home with an introduction to the following formal obedience exercises; sit/stay, down/stay, heel, stand, walk and come. Koa has been introduced to article indication, scent pads, "take-it", hold and the "around" commands utilized for exercises pertaining to the sport. Koa currently has traveled via plane in the cabin and been a passenger on A/C Transit and BART. He is comfortable on all surfaces and currently stays engaged via the ball or tug while on escalators and in elevators. Koa will also understand the informal commands leave-it, off, "place/your bed" and wait.
